

# Story 1

population growth is increasing and decrea..	they are equal in population	reliability	food notes	area and values	city and population	country and population
----------------------------------------------	------------------------------	-------------	------------	-----------------	---------------------	------------------------

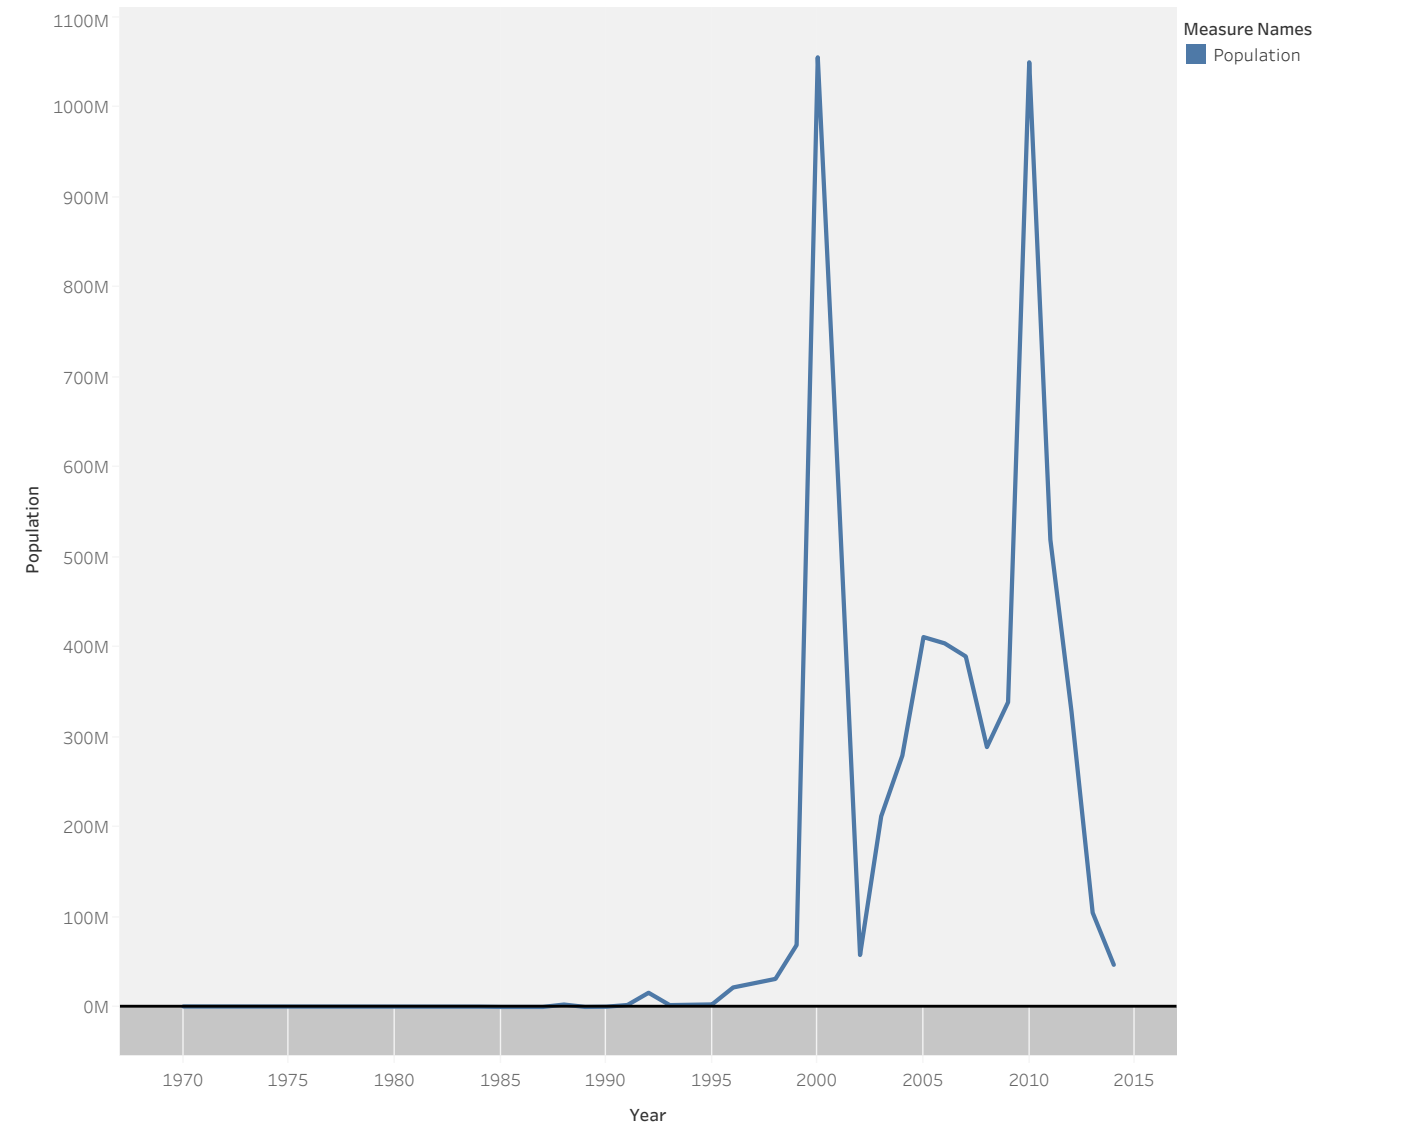

# Story 1

population growth is increasing and decrea..	they are equal in population	reliability	food notes	area and values	city and population	country and population
----------------------------------------------	------------------------------	-------------	------------	-----------------	---------------------	------------------------

# Story 1

population growth is increasing and decrea..	they are equal in population	reliability	food notes	area and values	city and population	country and population
----------------------------------------------	------------------------------	-------------	------------	-----------------	---------------------	------------------------

# Story 1

population growth is increa..	they are equal in population	reliability	food notes	area and values	city and population	country and population
-------------------------------	------------------------------	-------------	------------	-----------------	---------------------	------------------------

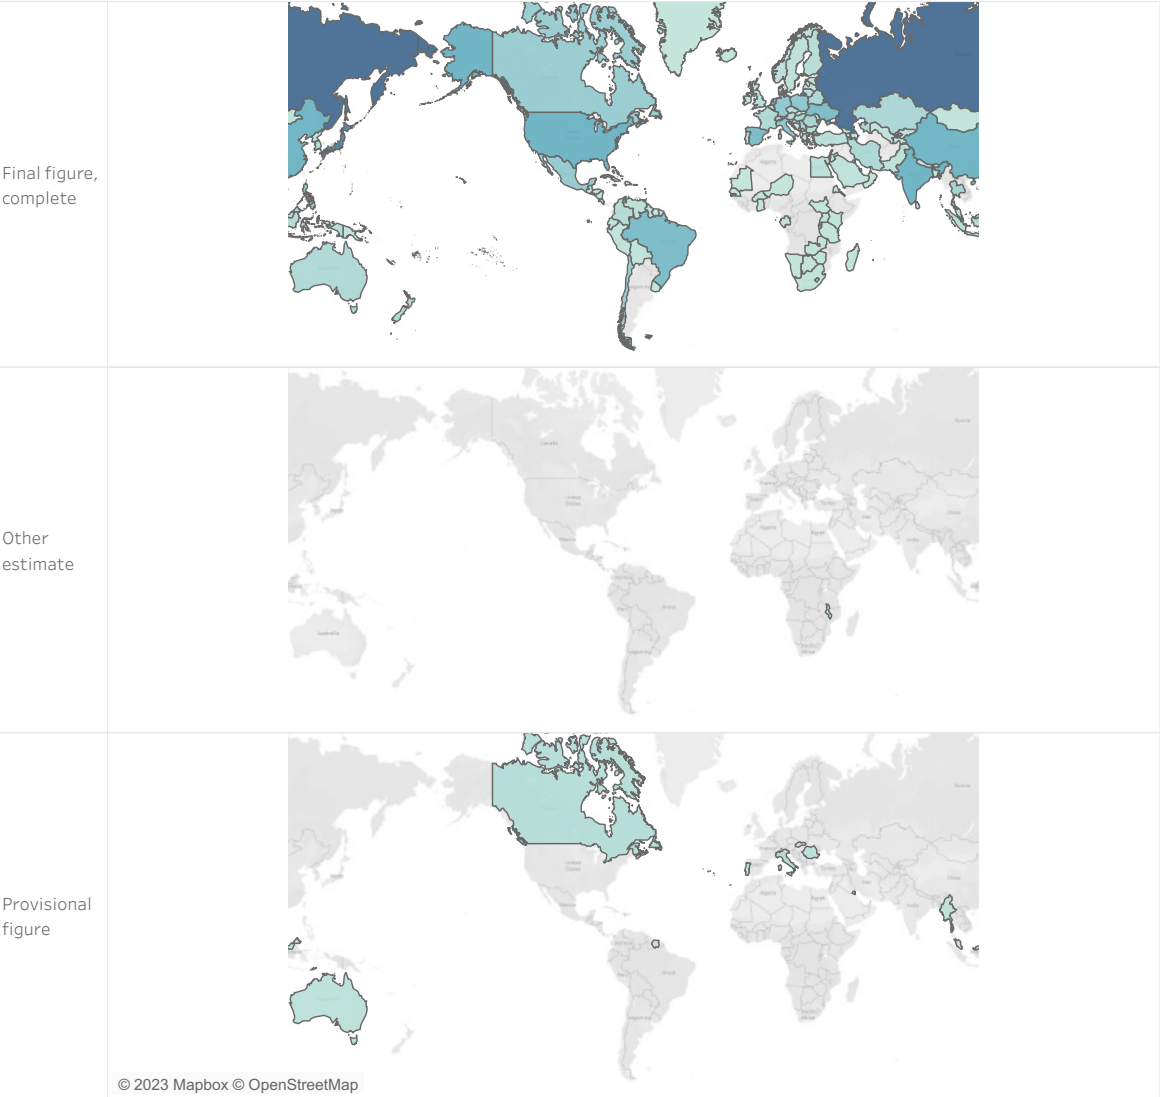

## Reliability

# Story 1

they are equal in population	reliability	food notes	area and values	city and population	country and population	sex ratio
------------------------------	-------------	------------	-----------------	---------------------	------------------------	-----------

## Reliability

Count of UN population d..  
2 3,028

# Story 1

reliability	food notes	area and values	city and population	country and population	sex ratio	city and record type
-------------	------------	-----------------	---------------------	------------------------	-----------	----------------------

## Reliability

Final figure,  
complete

Other  
estimate

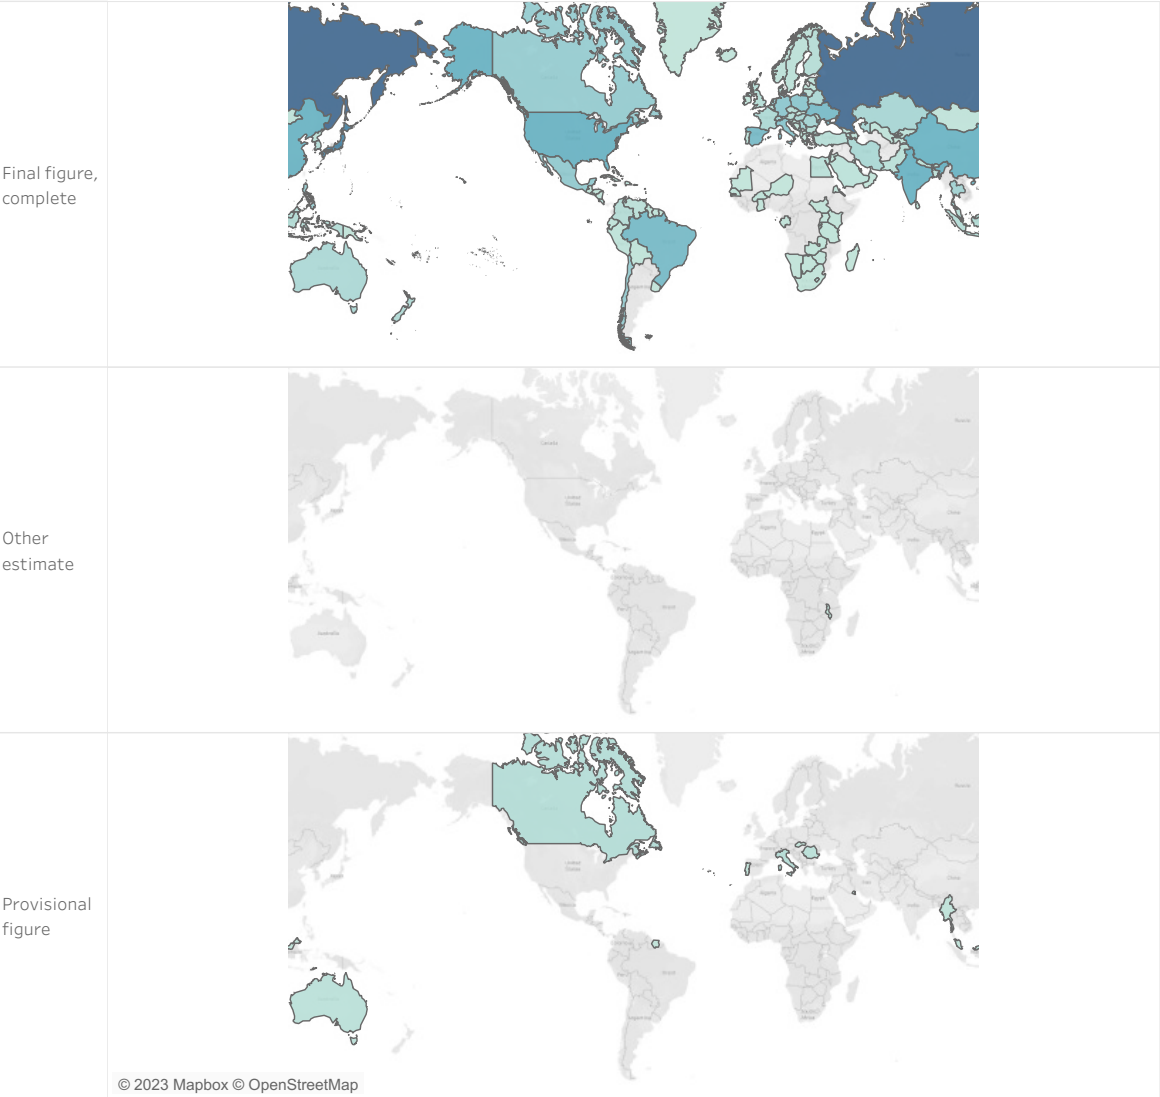

Provisional  
figure

Story 1

food notes	area and values	city and population	country and population	sex ratio	city and record type	city and sex ratio
------------	-----------------	---------------------	------------------------	-----------	----------------------	--------------------

Reliability

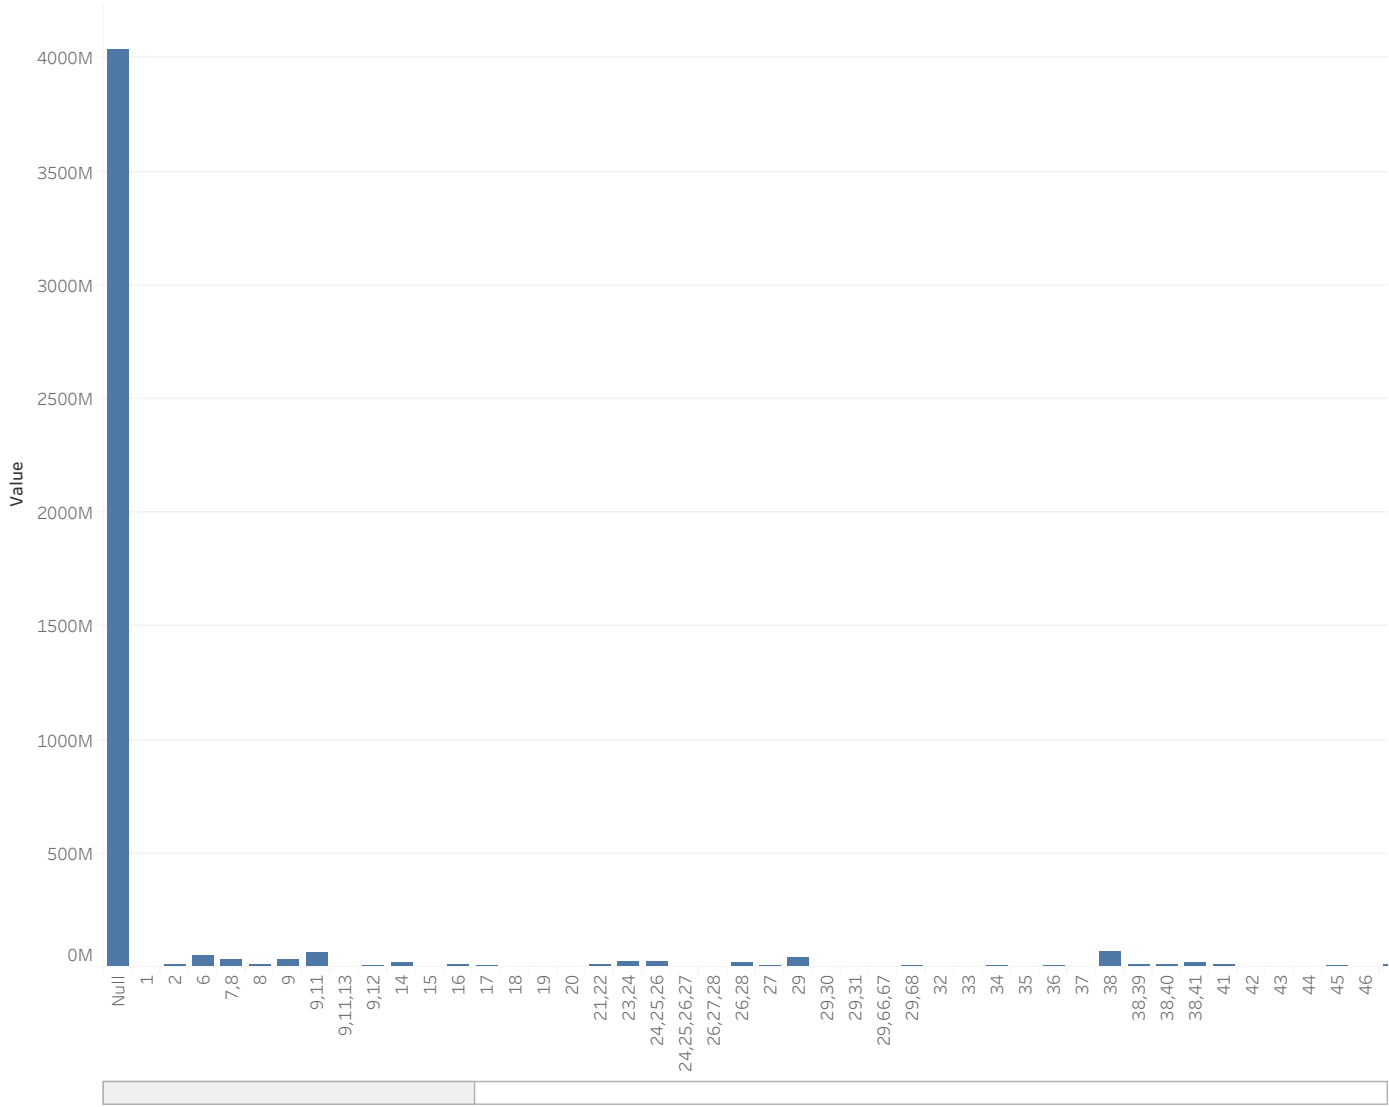

Count of UN population d..  
2 3,028

Story 1

area and values	city and population	country and population	sex ratio	city and record type	city and sex ratio	count population and area
-----------------	---------------------	------------------------	-----------	----------------------	--------------------	---------------------------

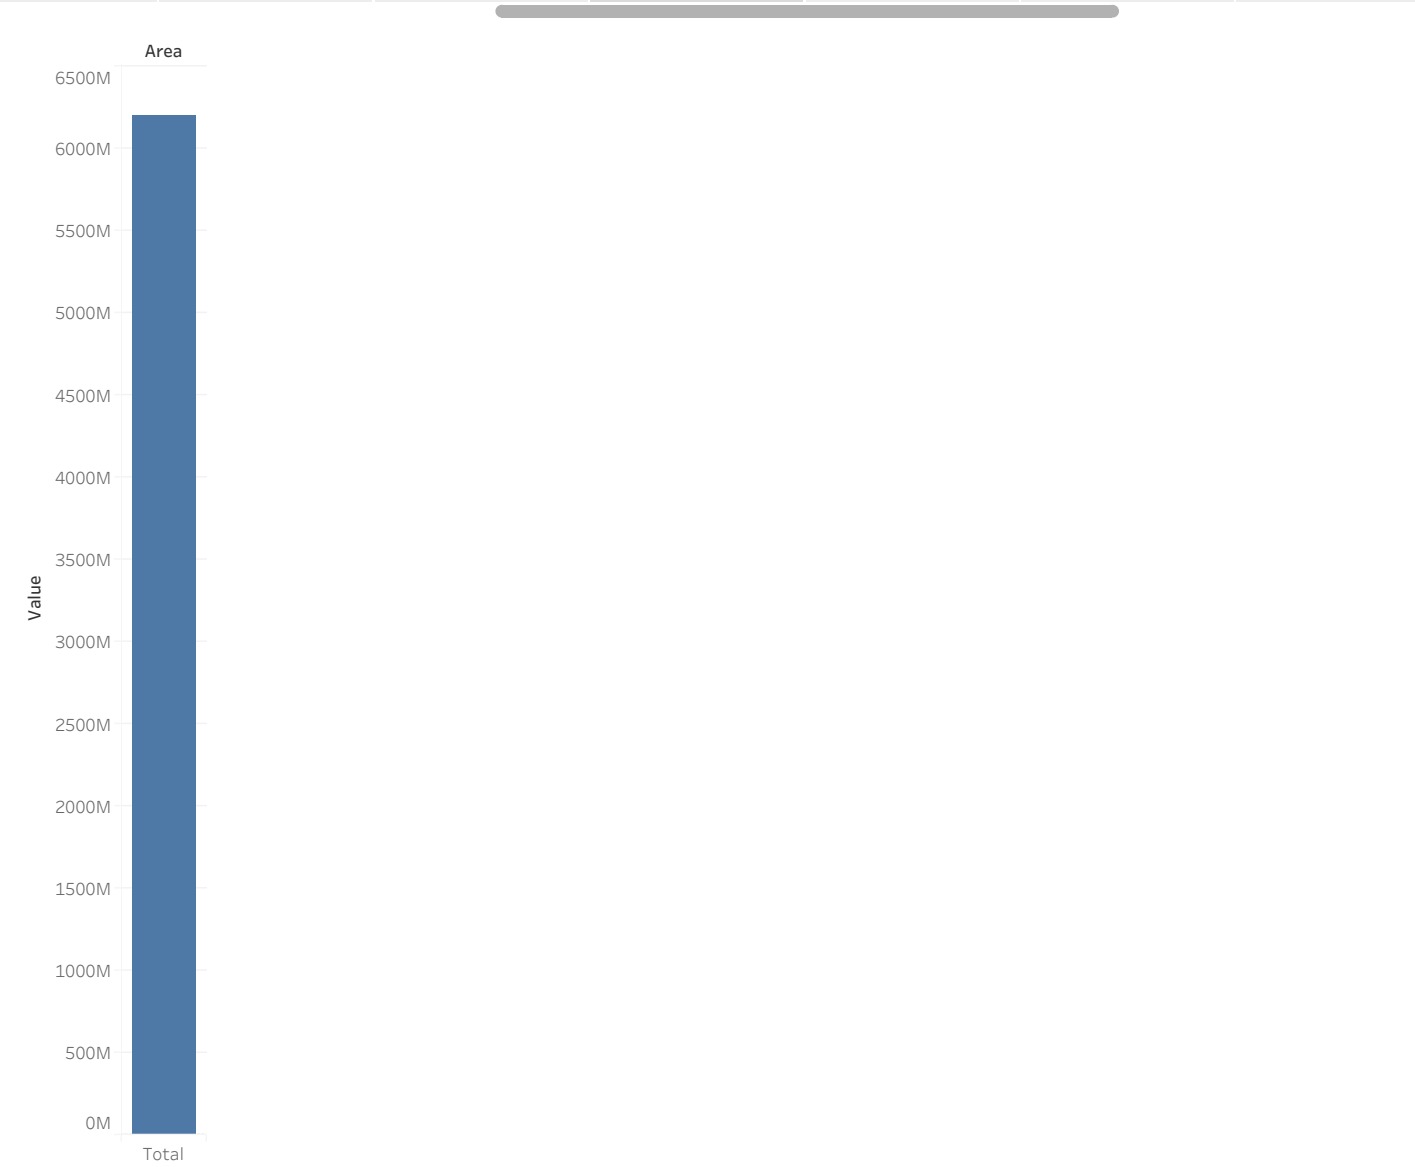

Value Footnotes

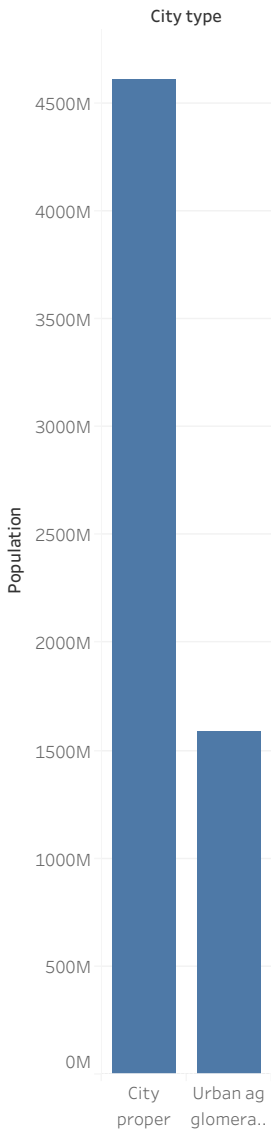

# Story 1

city and population	country and population	sex ratio	city and record type	city and sex ratio	count population and area
